Management has not reconciled forward-looking non-GAAP measures to their most directly comparable GAAP measures of operating income and net income. This is because the Company cannot predict with reasonable certainty and without unreasonable efforts the ultimate outcome of Care Margin, Platform Contribution or Adjusted EBITDA due to market-related assumptions that are not within our control as well as certain legal or advisory costs, tax costs or other costs that may arise. For these reasons, management is unable to assess the probable significance of the unavailable information, which could materially impact the amount of the future directly comparable GAAP measures.

See "Key Metrics and Non-GAAP Financial Measures" for more information as to how the Company defines and calculates Implemented Providers, Attributed Lives, Practice Collections, Care Margin, Platform Contribution, and Adjusted EBITDA, and for a reconciliation of the most comparable GAAP measures to Care Margin, Platform Contribution, and Adjusted EBITDA.

Certain non-recurring or non-cash expenses will be treated as an add back in the reconciliation of Net Income to Adjusted EBITDA, the details of which can be found in the Reconciliation of Net Income to Adjusted EBITDA schedule near the end of this and in future quarterly financial press releases.
